Subject: Clarification of Reclamation Surety Amount and Approval of Final Bond Payment,
Allroc Fine Aggregates, Black Rock Quarry, M/027/0088, Millard County, Utah

Dear Mr. Weston:

On October 8, 2009, the Division of Oil, Gas and Mining received your final payment toward the reclamation surety for the referenced mine site. The Division now holds a cash deposit totaling \$17,200.00, and the Bureau of Land Management holds a certificate of deposit for \$9000.00. Thank you for finalizing the payments. The total amount held by the BLM and the Division is \$26,200.00.

The Division approves the form and amount of the surety for operations to be conducted on 6.05 acres of land. No expansion of the quarry is authorized without an increase in the surety.

The surety amount for the full area included in the Notice of Intention to Commence Large Mining Operations, nine acres, is \$43,800.00 as calculated in 2005 and escalated to 2010 dollars. The surety will be due for re-evaluation in December 2010, and the Division will contact you about what changes will be needed.

Please contact me at 801-538-5261 if you have questions about this letter.

Sincerely,

Paul B. Baker
Minerals Program Manager
